

## 10th EAAE PhD Workshop in Budapest, Hungary 5-7 June, 2024

The 10th EAAE PhD Workshop took place at the Corvinus University of Budapest in Hungary from June 5th to 7th, 2024. I was selected to present a Discussion Paper and was awarded an AES Bursary.

The conference consisted of several keynotes, discussion paper sessions, flash paper sessions and social events. The keynotes were well selected and covered relevant topics, e.g., how to successfully publish a journal paper and how to apply for funding as an early-career researcher. Those talks offered great insights and useful tips. Further, individual consultation session offered the possibility for mentoring by a senior researcher on grants, CVs, and paper. I attended the CV clinic session and received valuable comments for improvement. Furthermore, during the coffee and lunch breaks as well as the social evening events I had the chance to meet acquaintances and make new contacts with PhD students and senior researchers. In addition, the speed dating session at the beginning of the workshop was well planned to get to know several attendees in a short time.

I presented my paper on the second day of the workshop and received valuable comments and feedback during the fruitful discussion. Those will definitely be helpful for preparing the paper for journal submission.

In conclusion, participating in the EAAE PhD Workshop was a valuable experience for me as I had the chance to present and discuss my work, create networks for further collaborations and receive useful tips in the practical key notes.

I would like to thank the Agricultural Economics Society for awarding me a travel bursary to attend the EAAE PhD workshop.
