

Research network on Economic Experiments for the Common Agricultural Policy

Call for contributions to the 3rd REECAP meeting in Osnabrück, Germany September 9th and 10th 2019

The Research network on Economic Experiments for the CAP (REECAP) is an EU-wide network founded in 2017. It aims at bringing together researchers, experts and policy-makers interested in the use of economic experimental approaches to evaluate and improve the Common Agricultural Policy. The annual meeting's objective is to strengthen and enlarge the REECAP community and disseminate research and policy advice in the field of agricultural policy.

We kindly invite you to submit abstracts (finished studies or work-in-progress) on

- ❖ Application of experimental methods to agricultural and agri-environmental themes: laboratory, field, lab-in-the-field, randomized controlled trials (RCT), discrete choice experiments (DCE)
- ❖ Quasi-experimental work in the field of agricultural economics and agri-environmental policy
- ❖ Using behavioral economic insights to improve agricultural and agri-environmental policies

Please submit abstracts to submissions@reecap.org Abstracts should be in English and have 400 words or less. Please use the template provided [online](#).

Timeline

23 April 2019	Submission deadline
17 June 2019	Notification of acceptance
01 July	Opening of registration (no registration fee)
