

Report of the 10th EAAE PhD Workshop

Felipe Aguiar

Date: June 10, 2024

The 10th EAAE PhD Workshop took place at Corvinus University of Budapest, Hungary, from the 5th to the 7th of June, 2024. The objective of the EAAE PhD Workshop was to give European PhD students the opportunity to present their research in a conference setting and receive feedback from peers and senior economists. I presented my paper titled ‘Farmers’ Expectations of Climate Action: Evidence from an Information Experiment’ under the discussion paper session titled ‘Climate Action’. The session was chaired by Donato Romano. I acknowledged financial support from the AES on the title slide of my presentation.

In addition, we benefited from the plenary sessions with keynote speakers. The topics of the plenary sessions were as follows:

- ‘Resilience to food and nutrition insecurity: old wine in new bottles?’
→ by Donato Romano
- ‘Successes and failures of publishing a journal paper’
→ by Jonathan Brooks and Iain Fraser
- ‘Grants and projects for early career researchers’
→ by Judit Fekete

We also had the opportunity to network uniquely with colleagues and discuss our research and experiences during the PhD.
